

No:mad Beta Journey Map

Look at the map and choose the best route for our package to get around the world. In other words, choose the next recipient, your friend, who is in best location in relation to our route around the world. For No:mad Beta it must be WEST direction. Draw the route to next recipient that you have chosen.

If this package already managed to get around the world (you can see it from map, it will be probably again in Europe), you have to send it back to us. The address is:
